From what I have read this bill violates a persons rites in so many ways people that are vindictive could use it or in worst case a criminal could use it to rob some one ,let's say there is a wealthy doctor ,and a degenerate,the way I read this bill if the degenerate goes to the police and claims "this doctor threatened me I need a protective order,the police are obligated to comply,serve papers confiscate all weapons ammo and permits,leaving them unprotected,and open to robbery from said degenerate or associated persons.
